A guide to finding your size

The simplest way of finding a suitable size is usually based on your chest width. Find a similar item that you already own and like the fit of and lay it flat on a table. Once flat get a tape measure and measure the distance in inches from armpit to armpit, this will give you your 'chest width' measurement. You can then use this measurement to cross-reference against the above size chart.

NB: This is just intended as guide and does not guarantee a perfect fit. Please also consider all other measurements given to find the best fit.
